Dear Mr. Chris Cervellera,

I wanted to write this letter of recommendation to let others know of the exceptional work you have done for my company and for me personally in the past. The artistic abilities, project dedication & wide range of experience sets "Swerve" apart from your competition. I don't know of many companies that would have been willing to work "overnight" to help me complete a design when I was in a jam. It was sincerely appreciated.

I would not hesitate to recommend "Swerve" to any company or individual seeking advertising or communications assistance.

Thanks again. You deserve to be successful!

Sincerely,

A handwritten signature in blue ink, appearing to read "Ryan Gummer".
